

Second International Conference on

Attosecond Physics

July 28 - August 1, 2009
Kansas State University
Manhattan, Kansas, USA

Scope:

- Attosecond pulse generation
- High-order harmonic generation
- Attosecond physics

- Ultrafast dynamics and imaging of molecules
- Laser-plasma interaction and super-intense lasers
- Free-electron x-ray lasers

- Coherent control
- Laser technology, frequency combs and fiber lasers
- Ultrafast dynamics in solids, surfaces, and clusters

Honorary Chairs:

P. Corkum (Canada); F. Krausz (Germany); K. Midorikawa (Japan)

Local Chairs:

C.D. Lin; Zenghu Chang
